

## DomikNITrix Book Errata

Below are all known errata in the DomikNITrix book. Please keep this with your copy.

If you find any new errata, please email [knitsewbakegrow@pm.me](mailto:knitsewbakegrow@pm.me). It's especially helpful if you can bring me a solution along with the problem, if you have an idea what is wrong. The simpler your explanation, the more helpful it is.

### Tubular Cast On

**Page 47**

Incorrectly states to use a needle two sizes larger than the gauge needle. A SMALLER needle is recommended for tubular cast on or the edge will loosen with wear.

### Thin Mint Scarf

**Page 103**

**Dec rnd 1:** Knit to 2 sts before end of first needle, k2 tog, turn work, SSK, knit to end—46 sts

### Valentine Candy Pillows

**Page 105**

The wool used for embroidery should be included in Yarn rather than Notions section.

Baby Ull by Dalegarn is a baby weight wool. Do not choose cotton embroidery floss or it will sink into the stitches and not fill in the letters as well as baby wool.

## Snood and Spiral Mesh Cap

**Page 118**

Snood AND mesh cap gauge is 16 sts over 4 inches at the picot edge.

The Snood is a looser style than the Spiral Mesh Cap (though not as loose as a beret) and I intended that they would tuck the model's long hair up inside the Snood, Renaissance style (or 40's style) so the Snood is looser at the top to allow room for the hair. How you choose to wear it is entirely up to you.

## Mohawk hat

**Page 123**

Not an error, per se, but a lack of emphasis under Gusset Note. It's very important to "PICK UP ONE ST FOR EVERY TWO ROWS." Otherwise, sides of hat will bulge. Not cute.

**Page 124**

**Right gusset, Large only**

Add

**Row 11:** Turn, p19, sl last st as if to purl, pick up and p1 st, pss0—20 sts.

Note, correct to say: The SEAM is created by ...

**All sizes**

Correct row numbers for large size now that row 11 has been added:

**All Sizes:**

**Row 8 (8, 12):** Turn, k14 (17, 19), sl last st as if to knit, pick up and k1, pss0—15 (18, 20) sts.

**Row 9 (9, 13):** Turn, p14 (17, 19); sl last st as if to purl, pick up and p1, pss0—15 (18, 20) sts. Repeat rows 8-9 (8-9, 12-13) until... (continue as given in book)

**Left gusset,** prep row should read

**Prep rows:** Work rows 1-4 as for right gusset.

### **Left gusset, Large only**

Add

**Row 11:** Turn, p19, sl last st as if to purl, pick up and p1 st, psso—20 sts.

### **Nape**

The edge sts are handled differently on the Mohawk vs. Snow Devil and Devil hat. In section headed with "All sizes" just before "Nape"...

Insert "For the Snow Devil and Devil hat", before "place sts on holder"... the rest is ok to the end of paragraph. Then add:  
For Mohawk: place all sts from hold onto needle together.

### **Devil Hat/Snow Devil**

If you find the book version is difficult due to how it was broken apart between Devil, Snow Devil and Mohawk, please email me for the devil hat pdf.

### **Page 140**

Clarify yarn description as follows:

For Devil hat: 120 yards from recommended yarn list

For Snow Devil 200 yards from yarn list

For contrast horns, reserve 9 yards per horn

Yarns: Karabella Aurora bulky merino, Muench Goa cotton/microfiber blend, Muench Aspen merino/microfiber blend, KnitPicks Sierra, or any bulky weight yarn which knits to gauge.

### **Page 142:**

**Left horn**, end of paragraph should say slip back to RIGHT needle

### **Page 144:**

Last line before Left flap should read

**Rows 16-27:** Rep rows 12-15 three times—55 (57, 61 sts)

Add:

**Rows 28-30:** Rep rows 12-14 once

**Row 31:** Rep row 1—55 (57, 61) sts

Left flap

**Row 3:** k1, p1, k to marker and drop marker, RLI, k4, k2 tog, p1, k1—21 sts

**Row 5:** Rep row 1—19 sts

**Row 6:** Rep row 2—18 sts

### **Page 145**

Right flap

**Row 3:** k1, p1, SSK, k4, LLI, k11, p1, k1—21 sts

## **L'il Red Riding Hoodie**

### **Page 154**

Measurements for this project were omitted; however, they are consistent with the sizing for all projects as given on p97. Intended to fit with zero ease.

### **Page 156**

#### **Right Front**

Work Right side as for Left side, reversing ALL shaping, including working bust and shoulder shaping at opposite edge.

Thus, row 2 would be reversed as follows:

**Row 2:** k17, SSK, k3 (4,5,6,8), K2tog, k3.

### **Page 157-158**

**Row 1:** after "LLI under st just worked," PM between gusset and sleeve.

Left gusset and shoulder from row 19 had useful info edited out, resulting in lack of clarity.

All sizes should work each row, leaving out the specific instructions which do not apply to your size. So for example, size S will work rows 23, 25, and 27, omitting those instructions in parenthesis.

**Row 19:** (XS only: bind off 11 to complete gusset; all larger sizes, k11), k3, RLI, k39 (41, 43, 45, 47) [gusset 11, sleeve 43 (45, 47, 49, 51)]

**Row 21:** (S only: bind off 11 to complete gusset, all larger sizes, KFB,

k10, LLI), k3, RLI, k37 (39, 41, 43, 45, 47), LLI, k3 [gusset 13, sleeve 45 (47, 49, 51, 53)]

**Row 23:** (M only: bind off 13 to complete gusset; L and XL: k13 sts), k42 (44, 46, 48, 50), LLI, k3 [gusset 13, sleeve 46 (48, 50, 52, 54)]

**Row 25:** (L only: bind off 13 to complete gusset; XL: k13), k 48 (50, 52, 54, 56) [gusset 13, sleeve-- 46 (48, 50, 52, 54)]

**Row 27:** (XL only: bind off 13 to complete gusset), k3, ssk, k38 (40, 42, 44, 46), LLI, k3-- 46(48, 50, 52, 54)

#### **Page 160 - Hood**

**Row 57:** stitch count should read 38 (39, 40, 43, 45).

**Rows 59 and beyond:** the pattern instructions for establishing the ribbing should read:

Work [p1, k1] three times, inc 1 st in purl, [k1, p1] three times more

#### **Zipper bands**

The sample shown in the book has bands knit with a slip stitch edge, though this is not directed in the pattern. It still looks great without it, so it's up to you. See p 66 for specifics on the slip stitch edge if you prefer it. Slip the first stitch of all RS rows for the right band (as worn) and the first st of all WS rows for the left band. I recommend knitting both bands at the same time, making it easier to keep track with only half as many rows to turn.

## **Big Bad Wolf Pullover**

**Page 164**

**Yarn:** 6 (6, 7, 7) skeins (**125** yards each) of Lamb's Pride wool/mohair blend bulky yarn in color M01 Sandy Heather. 1 skein (125 yards each) of Lamb's Pride wool/mohair blend bulky yarn in color M04 Charcoal Heather

**End of page 164:**

**Increase row:** Cont in st st, inc before first marker and after last marker this row -39 (39, 41, 43) sts

**Next 24 rows:** [Work 5 rows plain, then work increase row] 4 times -47 (47, 49, 51) sts

**Next 32 rows:** [Work 3 rows plain, then work increase row] 8 times -63 (63, 65, 67) sts

Resume from "Knit 3 (5, 5, 7) rows..."

## **Bob Dobbs and Skull vests**

**Page 172**

#### **Underarm bind off**

**Round 6,** at underarm bind off, after bind off 5 sts in patt, p1, k1, p1, should read: ssk, k66 (72, 76, 82), k2 tog, then continue as in pattern. Stitch count needs correction to 76 (82, 86, 92) for front only.

#### **Back**

**Row 8:** [p1, p1] should be corrected to [k1, p1] twice

#### **Front**

**Row 1:** after [p1, k1] twice, should read: ssp, p64 (70, 74, 80), p2 tog, [k1, p1] twice - 74 (80, 84, 90) sts

After row 2 where it says rep rows 1-2, correct to say: work as established until piece measures 4" from underarm bind off; end with a WS row [Instead of rep rows 1-2 and end with row 1 which is incorrect now that we've made the changes above.]

Notes about chart placement:

For Bob Dobbs, begin the second row of chart (the pipe) 19 rows after the ribbing. The chin will follow 6 rows later.

For Skull, begin the first row of chart (the chin) 35 rows after the ribbing.

If you wish to adapt this design for intarsia, please review the Big Bad Wolf sweater pattern for technique. Intarsia was accomplished on that design by adding a seam stitch at each side before splitting the front and back

at the waist, working intarsia chart back and forth on the front, then finishing the back working flat as well. It would be equally simple use the same technique on this vest to work intarsia if that is your preference. For the skull, use a mix of intarsia and stranded knitting, since the teeth are annoying to do in intarsia!

## Winged Heart Bralet

Bralet is shown inside out in the book photos. Please see Ravelry project page for Right Side out pics!

### Page 181

**Row 2 and all RS rows through row 6:**Knit.

**Row 31:** stitch count is 57 (59, 61, 63)

## Sweetheart

### Page 190

The knits and purls were interchanged in the second column of instructions for the left side neck shaping on page 190, which applies to sizes M, L and XL only. Second column should read as follows from the top:

**NEXT ROW:** Sl first 2 sts, pass first st over second st to bind off 1, KNIT to last st, sl last st - 34 (36, 40 sts)

Rep last two rows ...

**NEXT ROW:** Sl first 2 sts, pass first st over second st to bind off 1, bind off 2 more, PURL to end.

**NEXT ROW:** KNIT to last st, sl last st

### Neck edging

Paragraph should end with:

"Pick up and knit k3 stitches for every 4 rows along right front neck."

Join for working in the round.

## Swizzle Vest

### Page 204

**Rows 2-4:** (should appear immediately following row 1) Work ribbing in intarsia as est.

**Row 6 (WS):** Purl in intarsia as established until 2 sts rem, k1, p1.

### Page 205

#### Complete pocket

**Row 28 and all WS rows through row 42:**

Purl in intarsia as established until 2 sts rem, k1, p1.

### Page 206

On the LEFT front

**Rows 2-4:** Work ribbing in intarsia as est.

**Row 6:** P1, k1, purl in intarsia as est.

Headers "Work right pocket opening" and "Resume right front" should be corrected to "Work LEFT pocket opening" and "Resume LEFT front"

**Row 28 and all WS rows through row 44** should be clarified to: p1, k1, purl in intarsia as established.

**Row 33 (missing):** With MC, k5; with CC, k7; with MC, k1, RLI, k7, p1, k1-- 23 sts

## Jughead Hat

### Page 212

Yarn chosen should be worsted weight, not DK, unless you plan to double strand the DK weight yarn.

Tip: No wrap and turn will be made at the alternate color marker for bottom of hat. When only one st remains at alt marker, it is time to begin increasing again for the next section. When 8 sts remain at alt marker, time to begin decreasing

### Page 213

**Row 30:** Stitch count at end row is 42.

## Slink

### Page 218

Needle size US 9 is a 5.5 mm needle, not 5 mm as printed, but whatever gets gauge is what you'll choose.

It's not stated which needle size to start with. Choose the size that gets gauge. Larger needle is used for bind off to assure loose neck edge.

### Page 220 (schematic)

Measurement for circumference at underarm should be 34 (35 3/4, 38, 39 1/4, 42 3/4)

### Page 221 - Right Side

**Rows 15-32:** Work Stitch Pattern rows 3-6 once, then work Stitch Patt rows 1-6 twice

### Page 223

Beginning of Right Sleeve, after "... pick up and k4 along bottom of armhole, then 26 (28, 28, 28, 30) sts along ..." should then say: back armhole edge, then pick up and knit 27 (29, 29, 29, 31) sts along front armhole, ending at last bound off st.

**Rows 5, 9, 13, and 17:** p2 tog should be corrected to SSP.

## City Coat and Mod Coat

**Note on yarn choice and gauge:** Gauge is intentionally tight, but NOT as tight as you may think based on the yarn info in the book. Allow me to explain:

For Aspen by Muench, the ball band really does say 2.5 sts to the inch (point being that technically, this is not an error, but it is misleading, read on).

My experience with Aspen is that 2.5 sts/inch is a ridiculously loose gauge for it. It really knits up closer to 3.5 stitches to the inch if a size 10 needle is used and makes a nice normal fabric at that gauge. For example, I've substituted Aspen in my Valentine heart pattern and it works perfectly at that gauge.

Please choose a yarn that shows 3.5 stitches to the inch on the band, not 2.5. You may wish to buy one ball and make sure the gauge works before you go whole hog on your yarn buy.

You will knit it at 3.75 sts/inch which is tighter than 3.5, but I think it would be humanly impossible to knit most 2.5 sts/inch gauge yarns to make this coat if you plan to substitute yarn.

## Mod Coat

Please note that the combination of yarns and notions used to create the Mod Coat (with KnitPicks Yarns) weigh 7.5 pounds / 3.4 kilos in total. While our sample looks amazing in pics, it is heavy to wear and could be completed with much less total yarn weight and spend. Swatch it and see!

### Page 229

#### Front Neck Shaping

Next 4 RS rows: do as written  
WS rows: knit even
